

Jack enters their hotel room and grins at the sight of Rose across the Doctor's lap, her bare ass shocking red. He can almost see the heat rippling off it.

"Close the door!" she pants. "What if someone comes by?"

"They'll get a fantastic view," the Doctor drawls. "Leave it open."

Jack crouches, sliding a finger into her slick pussy. "She's almost ready. Maybe another twenty strokes."

"Get me the paddle and gag her with something."

They all hear the elevator doors rumble open.

"Someone's coming!" Rose squeals as Jack unzips his pants.

The Doctor raises his arm. "I know."
